ATTENDANCE AND ABSENCE
The educational program offered by this District is predicated upon the presence of the student and requires continuity of instruction and classroom participation. Attendance shall be required of all students enrolled in the schools during the days and hours that the school is in session or during the attendance sessions to which s/he has been assigned. Crestwood Intermediate School student hours are 8:50-3:20 p.m.

In accordance with statute, the Superintendent shall require from the parent of each student of compulsory school age or from an adult student who has been absent from school or from class for any reason, a (written) statement of the cause for such absence. The Board of Education reserves the right to verify such statements and to investigate the cause of each single absence or prolonged absence.
Repeated infractions of Board policy on attendance may result in suspension or expulsion. The Board considers the following factors to be reasonable excuses for time missed at school:

A. personal illness (a written physician’s statement verifying the illness may be required);
B. illness in the family necessitating the presence of the child;
C. quarantine of the home;
D. death in the family;
E. necessary work at home due to absence or incapacity of parent(s)/guardian(s);
F. observation or celebration of a bona fide religious holiday;
G. out-of-state travel (up to a maximum of four (4) days per school year) to participate in a District-approved enrichment or extra-curricular activity;
H. such good cause as may be acceptable to the Superintendent.

Any classroom assignment missed due to the absence shall be completed by the student.

Attendance need not always be within the school facilities, but a student will be considered to be in attendance if present at any place where school is in session by authority of the Board.

The Board shall consider each student assigned to a program of other guided learning experiences to be in regular attendance for the program provided that she/he reports to such staff member she/he is assigned for guidance at the place in which she/he is conducting study, and regularly demonstrates progress toward the objectives of the course of study.

The Superintendent may excuse a student over fourteen (14) years of age from attendance at school for a future limited period for the purpose of performing essential work directly or exclusively for his/her parents or guardians. Such excuse should not exceed five (5) days and may at the discretion of the Superintendent be renewed for five (5) additional days. At no time, however, shall such excuse cause a student to be absent from school for a period of more than ten (10) consecutive days. At the discretion of the Superintendent or his/her designee, a student may be excused for a longer period of time than ten (10) days if a child’s parent or guardian has recently died or become totally or partially incapacitated and there is no older brother or sister living in the home who is out of school (The Superintendent may request a certificate of a physician attesting to the physical condition of the parent or guardian).

A student will be considered habitually truant if the student is absent without a legitimate excuse for five (5) or more consecutive school days, for seven (7) or more school days in one (1) month, or for twelve (12) or more school days in one (1) school year.

A student will be considered chronically truant if the student is absent without a legitimate excuse for seven (7) or more consecutive school days, for ten (10) or more school days in one (1) month, or for fifteen (15) or more school days in one (1) year.

A. Legitimate excused for the absence of a student who is otherwise habitually or chronically truant include but are not limited to: the student was enrolled in another school district;
B. the student was excused from attendance in accordance with R.C 3321.04; or
C. the student has received an age and schooling certificate.
If a student is habitually truant and the student’s parent has failed to cause the student’s attendance, the Board authorizes the Superintendent to file a complaint with the Judge of the Juvenile Court and/or to take any other appropriate intervention actions as set forth in this Board’s policy.

If a student is chronically truant and the student’s parent has failed to cause the student’s attendance, the Board authorizes the Superintendent to file a complaint with the Judge of the Juvenile Court.

In order to address the attendance practices of a student who is habitually truant, the Board authorizes the Superintendent to take any of the following intervention actions:

A. assign the student to a truancy intervention program;
B. provide counseling to the student;
C. request or require the student’s parent to attend a parental involvement program;
D. request or require a parent to attend a truancy prevention mediation program;
E. notify the Registrar of Motor Vehicles of the student’s absences;
F. take appropriate legal action;
G. possible assignment to an alternative school (Note: if the District has established an alternative school, it must appear as an alternative intervention strategy).

The Superintendent is authorized to establish an educational program for parents of truant students which is designed to encourage parents to ensure that their children attend school regularly. Any parent who does not complete the program is to be reported to law enforcement authorities for parental education neglect, a fourth class misdemeanor if found guilty.

The Superintendent shall develop administrative guidelines that:

A. ensure proper procedures so the student and his/her parents are provided the opportunity to challenge the attendance record prior to notification and that such notification complies with R.C. 3321.13 (B)(2);
B. ensure a school session which is in conformity with the requirements of the rules of the State Board;
C. govern the keeping of attendance records in accordance with the rules of the State Board;
D. identify the habitual truant, investigate the causes of his/her behavior, and consider modification of his/her educational program to meet particular needs and interests;
E. refer for evaluation any student who, due to a specifically identifiable physical or mental impairment, exceeds or may exceed the District’s limit on excused absence to determine eligibility either under the Individuals with Disabilities Education Act (IDEA) or Section 504 of the Rehabilitation Act of 1973, or other appropriate accommodation.

When a student is unable to attend school, parent/guardian(s) are to call the Intermediate office at 330-357-8203 by 10:00 A.M. on the day of the absence. To report a student absent or tardy, Press 2 for the attendance line and leave a message. For your convenience, a voice mail message can be left during non-school hours as well. If there is no call, the school will make all attempts to verify the absence by calling the parent/guardian(s) at home or work. If they can not be reached, the school may contact individuals listed on the student’s Emergency Medical Authorization form. These attempts to verify a student’s whereabouts are required by Ohio Missing Child regulations.

Upon the student’s return to school following the absence, he/she must bring a note from his/her legal guardian giving the date(s) and reason for the absence if phone contact has not already been made. Absences not confirmed through a phone call or accompanied note will become unexcused. Students must submit a note to the office no later than the second day after they return to school.

Students are permitted no more than ten (10) absences in a school year. Parent notes will not be accepted for absences beyond the 10-day limit. All absences beyond the 10-day limit will be unexcused unless they are accompanied by a physician’s note, a court document, or counseling appointment.

**PLANNED ABSENCE**

Absences for a family trip, vacation, and extra-curricular activity, non-school sponsored activity, college visitation, etc. are to be considered a Planned Absence. A planned absence notice is to be completed and submitted to the school office 5 days prior to the scheduled absence from school for consideration and approval. These absences will count within the 10-day limit on excused absences. Care should be given when planning a vacation during the school year because a student’s grades may be adversely affected.

The following criteria apply to all requests for Planned Absences:

A. Planned absences are not to be requested during those days established for Ohio Achievement Assessments.

B. It will be the student’s responsibility to make arrangements for makeup work and/or tests missed upon return to school. One day’s makeup time shall be permitted for each day of absence. Teachers will not be expected to tutor individual students.

C. All work and/or tests are expected to be made up in the prescribed period of time. Failure to do so may result in zero (0) credit for the assignment, quiz, or test.

D. Absence in excess of ten consecutive school days may require a report be submitted to the Truancy Officer.

**MAKE-UP WORK**

If a student is absent from school for three or more days, arrangements should be made to have textbooks and assignments sent home. A call should be made to the school and the counselor will make arrangements with the parent/guardian(s). Students have the same number of days absent plus one more day to make up work for an excused absence.

Any student suspended from school shall be permitted to make up missed assignments which must be completed and submitted within one day of the student’s return to the classroom.

**LATE TO SCHOOL**

When a student is late to school, he/she must report to the main office for an admit-to-class form. Habitual tardiness may result in disciplinary action, parent contact, or both. A written excuse shall be brought in by the student if the tardiness is to be excused.
EARLY DISMISSAL FROM SCHOOL
If it becomes necessary for a student to be dismissed from school early, the student should present a written request signed by the parent/guardian to the office or teacher in the morning.

If a student becomes ill during the day and must leave school, he/she should report to the main office and a secretary will place a call to the home or parent’s place of employment. The student will remain in the clinic until the parent arrives. Before leaving the school building, he/she must be signed out by the parent. In other words, a student may not leave the building to a waiting vehicle. The parent or guardian must enter the school and show photo I.D. when picking up a student. Students may only be released to parents, guardians or those listed on emergency forms.

Any student to be picked up by someone other than his/her parent/guardian must have a note signed by the parent/guardian. This note should include the date, full name, and telephone number of the person picking up the student. All arrangements must be made at home prior to school. The office phones are not to be used to make those arrangements.

Any student wishing to leave school with another student, MUST have a note signed by the parent or guardian. This note should include the date and the full name, address and telephone number of the people to whom the student is to be delivered and must be approved by the main office the morning of that day. All arrangements must be made at home PRIOR to school. The office phones are not to be used to make those arrangements.

CLINIC
The clinic will be used by students who become ill (or need emergency treatment) during the school day. Before coming to the clinic, a student who feels ill should report to his/her scheduled class and receive a pass from that teacher. School work missed shall be made up.

POLICY OF ADMINISTERING MEDICATION TO STUDENTS
The Board of Education shall not be responsible for the diagnosis and treatment of student illness. The administration of prescribed medication and/or medically-prescribed treatments to a student during school hours will be permitted only when failure to do so would jeopardize the health of the student, the student would not be able to attend school if the medication or treatment were not made available during school hours, or if the child is disabled and requires medication to benefit from his/her educational program.

For purposes of this policy, “medication” shall include all medicines including those prescribed by a licensed health professional authorized to prescribe drugs and any nonprescribed (over-the-counter) drugs, preparations, and/or remedies. “Treatment” refers both to the manner in which a medication is administered and to health-care procedures which require special training, such as catheterization.

Before any prescribed medication or treatment may be administered to any student during school hours, the Physician’s Request for the Administration of Medication by School Personnel form will be submitted to fulfill all Board requirements.

Before any nonprescribed medication or treatment may be administered, the Parent Guardian Request for the Administration of Over the Counter Medication by School Personnel form will be submitted to fulfill board requirements. No student is allowed to provide or sell any type of over-the-counter medication to another student.

Only medication in its original container; labeled with the date, if a prescription; the student’s name; and exact dosage will be administered. Medication may be conveyed to school directly by the parent/guardian or other responsible adult at parental request. Medication MAY NOT be sent to school in the student’s lunch box, pocket, or other means on or about his/her person.
Students shall be permitted to carry and use, as necessary, an asthma inhaler, provided the student has prior written permission from his/her parent and physician and has submitted a form for, Authorization for the Possession and Use of Asthma Inhalers, to the principal and any school nurse assigned to the building.

Students shall be permitted to carry and use, as necessary, an epinephrine autoinjector to treat anaphylaxis, provided the student has prior written approval from the prescriber of the medication and his/her parent/guardian, if the student is a minor, and has submitted written approval (Authorization for the Possession and Use of Epinephrine Autoinjector (epi-pen) to the principal and any school nurse assigned to the building. The parent/guardian or the student shall provide a back-up does of the medication to the principal or school nurse.

No drug prescribed by a physician for a student shall be administered by a school employee unless the following occur:

A. The Board, through the school nurse, receives a written request, signed by the parent, guardian, or other person having care or charge of the student, that the drug be administered to the student.

B. The Board, or person designated by the Board, receives a statement signed by the physician who prescribed the drug, that includes the following information:

   1. The name and address of the student.
   2. The school and class in which the student is enrolled.
   3. The name of the drug and dosage to be administered.
   4. The times or intervals at which each dosage of the drug is administered.
   5. The date the administration of the drug is to begin.
   6. The date the administration of the drug is to cease.
   7. Any severe adverse reactions that should be reported to the physician and one or more phone numbers at which the physician can be reached in an emergency.
   8. Special instructions for administration of the drug, including sterile conditions and storage.

C. The parent, guardian or other person having care or charge of the student must submit a revised statement signed by the physician who prescribed the drug to the Board, through the school nurse, if any of the information provided by the physician, as described above changes.

D. The written request and statement in A and B above must be received by the school nurse and/or building administrator prior to the administration of the drug. The school nurse and person authorized will retain a copy of this request and statement.

E. The drug must be received by the person above designated to administer the drug, in a container in which it was dispensed by the prescribed physician.

**CONTROL OF COMMUNICABLE DISEASES**

The Board of Education recognizes that control of the spread of communicable disease spread through casual contact is essential to the well-being of the school community and to the efficient District operation.

For purpose of this policy, “casual-contact communicable disease” shall include diphtheria, scarlet fever and other strep infections, whooping cough, mumps, measles, rubella, and others designated by the Ohio Department of Public Health.

In order to protect the health and safety of the students, District personnel, and the community at large, the Board shall follow all State statutes and Health Department regulations which pertain to immunization and other means for controlling communicable disease spread through normal interaction in the school setting.
Decisions regarding the type of educational setting for children with potentially infectious disease should be based on the behavior, neurological development, and physical condition of the child and the expected type of interaction with others in the school setting. Public health officials, parents, and the attending physician should be consulted to assist in this process.

On the recommendation of the county health authority, a physician, or the school nurse, the principal may exclude a student from the building, or the principal may act independently if neither a physician nor the school nurse is available for consultation.

Students excluded for reason of communicable disease will be readmitted by one or more of the following methods:

1. Certificate of the attending physician attesting to their recovery.
2. Permit for readmission issued by the county health commissioner.
3. After a period of time corresponding to the duration of the communicability of the disease as established by the attending physician and/or the Commissioner of Health
4. Head lice re-admittance inspection by the school nurse.

Parents are not permitted to stop by classrooms unannounced. Student visitation is discouraged and only permissible with the building Principal's approval.

In order to assure maximum security for the students, all doors are locked during the school day. These doors may be opened from the inside in case of emergency, but are locked from the outside.

Students should not arrive at school prior to 8:30 a.m. No supervision is available until this time. No student should remain after school unless previous arrangements have been made as supervision will not be provided.

Any student wishing to ride a different bus must meet the necessary requirements:

1. It must be an extreme verifiable emergency.
2. A note containing date, bus number, full name, phone number, and address where the student is to be delivered must be approved by the main office the morning of that day.
3. If the change is for more than one day, a Change of Bus Stop form must be completed and returned to the office.

(Sleep-over’s, birthday parties, etc. will not be considered as extreme emergencies).

Bus Transportation

Students are expected to maintain good conduct on the bus. Any violation of good behavior on the bus may result in the student receiving a Bus Conduct Report. Repetition of bad behavior will result in the student having his/her bus privilege suspended for a period of time. While a student is under suspension from bus transportation, the safe transportation of the student becomes the responsibility of the parents. Parents and students are entitled to a hearing and may appeal suspensions as provided by law.

**STUDENT BUS BEHAVIOR TRACK**

Students’ Responsibilities:
To maintain good behavior at the bus stop location and while riding the bus by being respectful of self, others, and property.

Bus Drivers’ Responsibilities:
To provide a safe ride to and from school.

Administrators’ Responsibilities:
To provide support to the drivers and students.

Student behaviors that are inappropriate on the bus or at the bus stops need to be first dealt with by the drivers. Once an administrator at the school receives a bus ticket (Bus Conduct Report), the student will be called to the office in a timely fashion. Once a student begins the Behavior Bus Track, the amount of time suspended from the bus is progressive.

Step 1: Issue of First Bus Ticket
Discussion with student; parent/guardian signs ticket; copy is sent to the bus supervisor.

Step 2: Issue of Second Bus Ticket
Discussion with student including the statement that the next bus ticket may result in being suspended from the bus; parent/guardian signs ticket; student returns signed ticket; copy is sent to the bus supervisor.
Step 3: Issue of Third and Further Bus Tickets
Discussion with student; bus suspension for at least one (1) day to progressively more; issue of bus suspension papers; call to parent/guardian; notification of bus supervisor; possible recommendation for bus expulsion.

Please note: Exceptions to the Bus Behavioral Track steps include, but are not limited to, Rules 6, 9, 17, 18, 19, and 20. Exceptions may begin at Step 3: Bus Suspension may be dealt with according to the school discipline policies that follow in this handbook. For the protection of students and staff, police and/or child services may be notified of a violation of the school bus rules and regulations.

Private Transportation. If a student is transported to or from school in a private vehicle, he/she should not be dropped off or picked up during loading of buses. Park in designated parking area, not in the emergency/fire lane.

REPORT CARDS
The Crestwood school system grades on four (4) nine-week grading periods. Report cards will be sent home with your child every nine weeks. Interim reports will be sent home during each grade period.

PARENT CONFERENCES
We welcome the opportunity to meet and talk with parents regarding student progress. Parents who wish to schedule a conference with a teacher should call the school to set an appointment when conferences can be scheduled.

Each year two conference periods are set aside for parent/teacher conferences when students are not in attendance. We foster better understanding and communication through conferences with school and home.

Please feel free to contact the school any time you would like to discuss your child's work; his/her school life, or any of our policies and procedures. We respectfully welcome any suggestions or opinions that you may have in regards to your children or school. Please do not wait until a problem has developed to ask for a conference.

VOLUNTEERS
The Board of Education recognizes that certain programs and activities can be enhanced through the use of volunteers who have particular knowledge of skills that will be helpful to members of the classified staff responsible for the conduct or those programs and activities. The Superintendent or his designee shall be responsible for recruiting community volunteers, reviewing their capabilities, and making appropriate placements. She/he shall not be obligated to make use of volunteers whose abilities are not in accord with District needs. The Superintendent or designee is to inform each volunteer that she/he:
A. Is required to abide by all Board policies and District guidelines while on duty as a volunteer;

B. Will be covered under the District's liability policy but the District cannot provide any type of health insurance or cover illness or accident incurred while serving as a volunteer, nor is the person eligible for worker's compensation.

C. Volunteers are not to bring other children to school when volunteering or to parties unless invited. This will allow them to focus their time on the children and class where their volunteer services are needed.
Furthermore, the Superintendent or his designee shall inform all volunteers who work or apply to work unsupervised with the children on a regular basis of the need to display appropriate behavior at all times, and that they may be required to provide a set of fingerprints at any time so that a criminal records check can be conducted. If a criminal records check is then conducted, it will be done as a condition of continued service as a volunteer and will be at the Board's expense.

If a criminal records check indicates that a volunteer has been convicted of or pleaded guilty to any of the offenses described in Division (A)(1) of Section 109.572 of the Revised Code, the volunteer will be informed either that the Board is no longer interested in maintaining their volunteer service or that the volunteer will be assigned to duties for which she/he will not work unsupervised with children.

The Superintendent shall inform each volunteer of the district's appreciation for his/her time and efforts in assisting in the operation of the schools and for his/her understanding with regard to the need for all volunteers to be subject to possible criminal records check.

R.C. 109.574-7, 121.401-2, 3327.16, 3313.203 Revised 09/10/01

All textbooks are furnished by the Crestwood Board of Education. Students must pay for damaged or lost books. Each child shall pay a supply fee which includes workbooks, art materials and possibly a weekly student magazine or newspaper. Each child furnishes his/her own paper, pencils, and crayons.

Notices will be sent home with the students to inform parents of the amount owed. This obligation must be paid in full or the student's report card will be withheld in compliance with the practices of the Crestwood Local Schools. Please contact your child's school if you have extenuating circumstances concerning payment of fees.

To this end, each student must be responsible for his/her own behavior and must respect the rights of others.

The following is a general statement of what is expected of students at Crestwood. Any misbehavior on school property or at a school function or that which affects other students, staff, or the school is under this code.

Violation of this code may result in disciplinary action(s) such as assignment of demerits, assignment of detentions, notification to parents/guardians, in-school restrictions, alternative learning programs, suspensions, expulsion, emergency removal, or referral to the appropriate legal authorities.

The Superintendent may apply any or all of the period of suspension to the following year.

**BOARD POLICY 2260: NONDISCRIMINATION AND ACCESS TO EQUAL EDUCATIONAL OPPORTUNITY**

The Crestwood Local School District is an equal opportunity education institute and will not discriminate on the basis of race, color, creed, disability, religion, gender, ancestry, age, and national origin, place of residence within the boundaries of the District or social or economic background in its activities, programs or employment policies. Please contact Mr. Michael Maglionico, Crestwood School District Compliance Officer at (330) 357-8206 with any inquiries or complaints regarding discrimination or denial of equal access relevant to Title II, Title VI, and VII of the Civil Rights Act of 1964, Title IX of the Education Amendment Act of 1972, Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act, and the Age Discrimination in Federal Assisted Programs Act.

**BOARD POLICY 2260.01: SECTION 504/ADA PROHIBITION AGAINST DISCRIMINATION BASED**
Pursuant to Section 504 of the Rehabilitation Act of 1973 and its implementing regulations ("Section 504"), no otherwise qualified individual with a disability shall, solely by reason of his/her disability, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. The Board of Education does not discriminate in admission or access to, participation in, or treatment, or employment in, its programs or activities. As such, the Board's policies and practices will not discriminate against employees and students with disabilities, will provide equal opportunity for employment, and will make accessible to qualified individuals with disabilities its facilities, programs, and activities. No discrimination will be knowingly permitted against any individual with a disability on the sole basis of that disability in any of the programs, activities, policies, and/or practices in the District.

As used in this policy and the implementing administrative guidelines, "an individual with a disability" means a person who has, has a record of, or is regarded as having, a physical or mental impairment that substantially limits one or more major life activities. Major life activities are functions such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning and working. For more information regarding protection under Section 504 please contact the guidance office or Mr. Michael Maglionico, Director of Pupil Services, (330) 357-8206

BOARD POLICY 2460: INDIVIDUALS WITH DISABILITIES

The Americans with Disabilities Act (A.D.A.) and Section 504 of the Rehabilitation Act provide that no individual will be discriminated against on the basis of a disability. This protection applies not just to the student, but all individuals who have access to the District’s programs and facilities. The Crestwood Local School District provides a variety of Special Education programs and services for students identified as having a disability defined by the Individuals with Disabilities Education Act (IDEA). A student can access Special Education services through the proper evaluation and placement procedure. It is the policy of Crestwood Local School District that ongoing efforts will be made to identify, locate, and evaluate students below twenty-two years of age, who reside within the district and have a confirmed or suspected disability in accordance with all Federal regulations and State standards.

It shall be the policy of Crestwood Local Schools that the education of children with disabilities shall occur in the least restrictive environment; special education programs and services shall be appropriate and designed to meet the unique needs of each child with a disability; to the maximum extent appropriate, children with disabilities, including children in public or private institutions or other care facilities, shall be educated with children who do not have disabilities; special classes, separate schooling, or other removal of children with disabilities from the regular educational environment, shall occur only when the nature or severity of the disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily.

Parent/Guardian involvement in this procedure is required. More importantly, the school wants the parent/guardian to be an active participant. To inquire about the identification and evaluation procedure or programs, a parent/guardian should contact a guidance counselor. Parent/Guardian(s) who believe their child may have a disability that substantially limits major life activities of their child should also contact the guidance counselor. For information regarding services, activities, programs and facilities that are accessible to and usable by handicapped persons, contact Mr. Michael Maglionico, Director of Pupil Services at (330) 357-8206.

BOARD POLICY 7540.03: STUDENT NETWORK AND INTERNET ACCEPTABLE USE AND SAFETY

Advances in telecommunications and other related technologies have fundamentally altered the ways in which information is accessed, communicated, and transferred in our society. Such changes are driving the need for educators to adapt their means and methods of instruction, and the way they approach student learning, to harness and utilize the vast, diverse, and unique resources available on the Internet. The Board of Education is pleased to provide Internet services to its students. The District's Internet system has a limited educational purpose. The District's Internet system has not been established as a public access service or a public forum. The Board has the right to place restrictions on its use to assure that use of the District's Internet system is in accord with its limited educational purpose. Student use of the District's computers, network and Internet services ("Network") will be governed by this policy and the related administrative guidelines, and the Student Code of Conduct. The due process rights of all users will be respected in the event there is a suspicion of inappropriate use of the Network. Users have
Striving to Meet the Needs of Every Child, Every Day...

Crestwood Intermediate School

no right or expectation to privacy when using the Network (including, but not limited to, privacy in the content of their personal files, e-mails, and records of their online activity while on the Network).

The Board encourages students to utilize the Internet in order to promote educational excellence in our schools by providing them with the opportunity to develop the resource sharing, innovation, and communication skills and tools that are essential to both life and work. The instructional use of the Internet will be guided by the Board's policy on instructional materials.

The Internet is a global information and communication network that provides an incredible opportunity to bring previously unimaginable education and information resources to our students. The Internet connects computers and users in the District with computers and users worldwide. Through the Internet, students and staff can access up-to-date, highly relevant information that will enhance their learning and the education process. Further, the Internet provides students and staff with the opportunity to communicate with other people from throughout the world. Access to such an incredible quantity of information and resources brings with it, however, certain unique challenges and responsibilities.

First, and foremost, the Board may not be able to technologically limit access through the Board's Internet connection, to only those services and resources that have been authorized for the purpose of instruction, study and research related to the curriculum. Unlike in the past when educators and community members had the opportunity to review and screen materials to assess their appropriateness for supporting and enriching the curriculum according to adopted guidelines and reasonable selection criteria (taking into account the varied instructional needs, learning styles, abilities, and developmental levels of the students who would be exposed to them), access to the Internet, because it serves as a gateway to any publicly available file server in the world, will open classrooms and students to electronic information resources that have not been screened by educators for use by students of various ages.

Pursuant to Federal law, the Board has implemented technology protection measures, which protect against (e.g. filter or block) access to visual displays/depictions/materials that are obscene, constitute child pornography, and/or are harmful to minors, as defined by the Children's Internet Protection Act. At the discretion of the Board or the Superintendent, the technology protection measures may be configured to protect against access to other material considered inappropriate for students to access. The Board also utilizes software and/or hardware to monitor online activity of students to restrict access to child pornography and other material that is obscene, objectionable, inappropriate and/or harmful to minors. The technology protection measures may not be disabled at any time that students may be using the Network, if such disabling will cease to protect against access to materials that are prohibited under the Children's Internet Protection Act. Any student who attempts to disable the technology protection measures will be subject to discipline.

The Superintendent or Technology Coordinator may temporarily or permanently unblock access to sites containing appropriate material, if access to such sites has been inappropriately blocked by the technology protection measures. The determination of whether material is appropriate or inappropriate shall be based on the content of the material and the intended use of the material, not on the protection actions of the technology protection measures.

Parents are advised that a determined user may be able to gain access to services and/or resources on the Internet that the Board has not authorized for educational purposes. In fact, it is impossible to guarantee students will not gain access through the Internet to information and communications that they and/or their parents may find inappropriate, offensive, objectionable or controversial. Parents assume risks by consenting to allow their child to participate in the use of the Internet. Parents of minors are responsible for setting and conveying the standards that their children should follow when using the Internet. The Board supports and respects each family's right to decide whether to apply for independent student access to the Internet.

The Superintendent is directed to prepare guidelines that address students' safety and security while using e-mail, chat rooms, instant messaging and other forms of direct electronic communications, and prohibit disclosure of personal identification information of minors and unauthorized access (e.g., "hacking") and other unlawful activities by minors online.

Building principals are responsible for providing training so that Internet users under their supervision are
knowledgeable about this policy and its accompanying guidelines. The Board expects that staff members will provide guidance and instruction to students in the appropriate use of the Internet. Such training shall include, but not be limited to, education concerning appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms and cyber bullying awareness and response. All Internet users (and their parents if they are minors) are required to sign a written agreement to abide by the terms and conditions of this policy and its accompanying guidelines.

Students and staff members are responsible for good behavior on the Board's computers/network and the Internet just as they are in classrooms, school hallways, and other school premises and school sponsored events. Communications on the Internet are often public in nature. General school rules for behavior and communication apply. The Board does not sanction any use of the Internet that is not authorized by or conducted strictly in compliance with this policy and its accompanying guidelines. Users who disregard this policy and its accompanying guidelines may have their use privileges suspended or revoked, and disciplinary action taken against them. Users granted access to the Internet through the Board's computers assume personal responsibility and liability, both civil and criminal, for uses of the Internet not authorized by this Board policy and its accompanying guidelines.

The Board designates the Superintendent and building principal(s) as those responsible for initiating, implementing, and enforcing this policy and its accompanying guidelines as they apply to students’ use of the Network.

The administration of Crestwood Intermediate School reserves the right to amend this handbook for just cause. Parent/Guardian(s) and students will be given prompt notification if changes are made.

Closing Remarks
You will not find every possible situation concerning proper student behavior mentioned in these guidelines. Questions will arise that are not covered here. When that happens, the Principal will give the necessary interpretation of the question.
